$\lambda = 4\pi D R c_\infty$

$\lambda = ?$

$c(r)$

↓

$J(R)$

↓

$\lambda$

$$c(r) \overset{?}{=} (c_I - c_\infty)\frac{R}{r} + c_\infty$$

$$c_I = [\text{illegible}] \stackrel{?}{=} \frac{\pi R c_\infty}{\pi R + Na}$$

$$\vec{J} = -D \frac{\partial c}{\partial r}$$

$$c(r) \stackrel{?}{=} \left( \frac{\pi R}{\pi R + Na} c_\infty - c_\infty \right) \frac{R}{r} + c_\infty$$

$$\stackrel{\checkmark ?}{=} c_\infty \left( \left( \frac{Na}{\pi R + Na} \right) \frac{R}{r} + 1 \right)$$

$$c(r) \stackrel{?}{=} c_\infty - c_\infty \frac{R}{r} \left( 1 + \frac{1}{1 - \frac{\pi R}{Na}} \right)$$

AS $N \to \infty$, $c(r) = ?$

AS $N \to 0$, $c(r) = ?$
